

How to Check Your Internet Speed

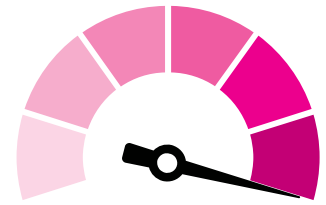

Low

Medium

High

Max

Follow these simple steps to test your connection anytime. Use www.speedtest.net, it's a trusted tool that provides quick and accurate speed results.

1. **Connect** to your home Wi-Fi or wired internet.
2. **Open your browser** and go to: www.speedtest.net
3. Click the **“GO”** button in the center of the screen.
4. Wait a few moments while the test runs.
5. View your results for:
 - **Download speed**
 - **Upload speed**
 - **Ping (latency)**

Tips for Accurate Results:

- 📶 For the most reliable test, use a **wired connection** if possible.
- 📶 Make sure other devices or streaming services are **not in use** during the test.
- 📶 If testing on Wi-Fi, stay **close to your router**.
